Vantage® Home Infusion Therapy Services has a designated team for meeting the needs of our patients with:

- *Bleeding Disorders*
- *Immune Deficiency Disorders*

Why Vantage®?

Our team consists of an advocacy coordinator, a dedicated nurse and a dedicated pharmacist so the patients have **a continuity of care** and the team is well aware of their particular patients. When a patient has a question, they can call one of three people starting with the Advocacy Coordinator. This ensures patient comfort through staff accountability, ultimately minimizing emergencies where dosing and clinical process is involved.
